Stainless Steel Fishery - When most think of the sea, they think of the coastlines that are next. You are standing along a sandy shoreline at twilight. The sun is lowering in the western sky, and you hear the waves crashing against the shore. White sand and foam are splattered across a rocky surface. The wind blows gently in a light breeze, carrying the salt air of the sea across land and onto your face. It is a wonderful feeling to stand so

---

close to the ocean. You can feel the history of this place in your soul. That is the power of sea. A very long time ago, this beautiful place was an island in a sea. The land that was gradually eroded and raised above sea level by wave action, exposing more layers of rock along the coastline. That is the power of sea. A very long time ago, this beautiful place was an island in a sea. Discover the planet Earth, and the real world
